

Department of Finance

Mission To protect and maintain the fiscal integrity and financial solvency of the County government.

Connection to the Countywide Strategic Plan

The Fairfax County Board of Supervisors adopted the first-ever Countywide Strategic Plan on October 5, 2021. The Countywide Strategic Plan serves as a road map to help guide future work, focusing on the 10 Community Outcome Areas that represent the issues of greatest importance to the community. The Department of Management and Budget continues to integrate the Countywide Strategic Plan into budget documents. For information on how the agency’s program performance contributes to these goals, please see the Performance Measurement Results by Community Outcome Area. For more information on the Countywide Strategic Plan, please see www.fairfaxcounty.gov/strategicplan/. The Department of Finance primarily supports the following Community Outcome Area:

Community Outcome Area	Vision Statement
Effective and Efficient Government	<i>All people trust that their government responsibly manages resources, is responsible to their needs, provides exceptional services and equitably represents them.</i>

Focus

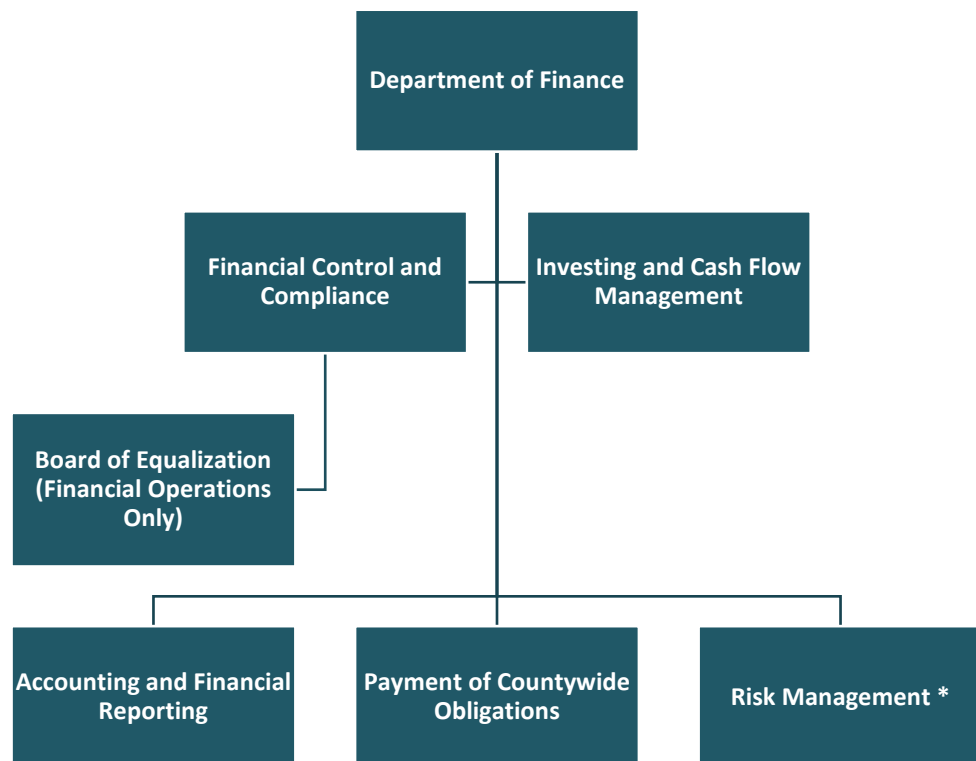

The Department of Finance serves the residents of Fairfax County, its vendors and partners, and agencies throughout the County. The department’s five business areas are Financial Control and Compliance, Investing and Cash Flow Management, Accounting and Financial Reporting, Payment of Countywide Obligations, and Risk Management, all of which work together to meet the department’s core business functions. These functions include ensuring accurate processing of financial transactions; investing County cash resources prudently and effectively; identifying and mitigating risk of loss of County financial resources; paying countywide obligations; and ensuring timely reporting of financial data to the governing body, rating agencies, and the public.

In providing optimal service to its customers, the department remains cognizant of the following:

- Partnering with other County departments to make the most efficient use of resources is essential to achieving related objectives.
- The department’s operating units must support and complement each other to achieve corporate missions. Business processes must be continuously examined and refined to achieve maximum efficiency.
- Changes in countywide requirements and priorities, federal and state legislation, and regulatory mandates require a flexible, responsive organization.
- Customers expect and deserve high quality service and access to the most advanced technology available.

In FY 2024, the department will continue to pursue its aggressive strategic plan that focuses on efficiency of operations through new technology, especially in the areas of electronic commerce and web-based applications with trading partners and external service providers. The department completed the implementation of lease accounting software in FY 2022 and continues to train countywide financial staff regarding automated system use and the requirements of new governmental accounting pronouncements related to leases. The objectives of ever-improving services to customers and positive returns on investments will be pursued vigorously in all business areas. The Department of Finance, responsible for countywide financial policy management oversight, will direct training and outreach efforts to review industry changes for impacts that require modification to existing or creation of new policies to ensure efficient financial processes and effective internal controls.

Effective and Efficient Government

The Financial Control and Compliance cost center continues to provide strong control and management over the County's bank accounts. During FY 2022, 100 percent of the County's bank accounts were reconciled within 30 days.

In FY 2022, the Investing and Cash Flow Management cost center consistently achieved returns above the Local Government Investment Pool (LGIP) benchmark. The Federal Open Market Committee has been increasing short term interest rates as it attempts to control inflation. Uncertainty and volatility are expected to continue during the next fiscal year. The County's investment policy has been awarded the Certificate of Excellence by the Association of Public Treasurers of the United States and Canada since 1998.

The Accounting and Financial Reporting cost center met all statutory, regulatory, and external mandates for timely, comprehensive financial reporting. For 44 years, the high quality of the County's Annual Comprehensive Financial Report has earned the Certification of Achievement for Excellence in Financial Reporting awarded through peer review by the Government Finance Officers Association of the United States and Canada.

The Payment of Countywide Obligations cost center comprises accounts payable and payment issuance operations (check-writing and electronic bank transfers) delivering centralized service to County agencies and multiple authorities and component units. While the number of initiated payments remains high, the number of checks produced continues to decrease as a result of ongoing efforts to consolidate payments and to implement e-commerce initiatives. These tools have capitalized on the capabilities of the FOCUS financial system and provided additional process improvements across the County. In addition, the cost center has begun working on system enhancements to payment processing that will increase efficiencies in workflow management.
