National Eating Disorders Awareness Week

Eating disorders are serious conditions related to persistent eating behaviors that negatively impact one's health, emotions and ability to function in important areas of life. They have the highest mortality rate of any mental illness. Eating disorders are not a choice; they are caused by a combination of biological, genetic, environmental and psychological factors and may co-occur with other conditions including depression, anxiety, or substance use disorder.

The theme of this year's National Eating Disorders Awareness Week (February 26 - March 4, 2018) is "Let's Get Real" and the goal is to expand the conversation and highlight the issues that surround the estimated 30 million Americans that struggle with eating disorders.

Take or share the [Fairfax-Falls Church Community Services Board's online mental health screening tool](#) that has a specific screening for concerns over [eating habits](#). Brief screenings are the quickest way to determine if you or someone you care about should connect with a mental health professional. The screenings are free, confidential, and anonymous. Get involved and learn more before reaching a point of crisis.

Get screened, seek help, and start the journey to healing.

Donate Your Old Car to the Police Department

Do you have a car you want to donate?

The Emergency Vehicle Operations Center (EVOC) is continuously in need of car donations to be used for training. Upon donation, owners are eligible

for an immediate tax deduction based on the current Blue Book value. Cars must be drivable, have operational seatbelts, and a headrest on the driver's seat.

For details and further information about car donations, please contact MPO Scott Neville at 703-633-7270 or by email Scott.Neville@fairfaxcounty.gov.

Recognize The Signs Of Stroke – And F-A-S-T!

Unfortunately, strokes do happen. It is important that you and your loved ones know and recognize the warning signs of a stroke as every second counts!

Please take a moment to review the below tips from our friends at the [American Heart Association](#).

If you think you or a loved one are experiencing a stroke, call 911 as soon as possible! Our paramedics and firefighters will be there to assist you promptly.

Sometimes other symptoms appear, separately, in combination or with F.A.S.T. signs. They are:

- Sudden confusion, trouble speaking or understanding speech.
- Sudden numbness or weakness of face, arm or leg. Especially on one side of the body.
- Sudden trouble seeing in one or both eyes.
- Sudden trouble walking, dizziness, loss of balance or coordination.
- Sudden severe headache with no known cause.

If someone shows any of these symptoms, call your Fairfax County Paramedics and Firefighter at 9-1-1 immediately!

FACE DROOPING

Does one side of the face droop or is it numb? Ask the person to smile. Is the person's smile uneven or lopsided?

ARM WEAKNESS

Is one arm weak or numb? Ask the person to raise both arms. Does one arm drift downward?

SPEECH DIFFICULTY

Is speech slurred? Is the person unable to speak or hard to understand? Ask the person to repeat a simple sentence, like "The sky is blue." Is the person able to correctly repeat the words?

TIME TO CALL 9-1-1

If someone shows any of these symptoms, even if the symptoms go away, call 9-1-1 and say, "I think this is a stroke" to help get the person to the hospital immediately. Time is important! Don't delay, and also note the time when the first symptoms appeared. Emergency responders will want to know.

County Agency Spotlight: Auditor of the Board

Auditor of the Board: Jim Shelton, MBA, CRP

What they do:

This agency plans, designs, and conducts studies, surveys, evaluations, and investigations of County agencies as assigned by the [Board of Supervisors](#) or the [Audit Committee](#).

For each study conducted, the agency focuses primarily on the County's Corporate Stewardship vision elements. The agency does this by developing, whenever possible, information during the studies performed which are used to maximize County revenues or reduce County expenditures.

Additionally, this agency conducts follow-up work on prior period studies. As part of the post study work conducted, they review the agreed upon managements' action plans. To facilitate the process, they collaborate with management prior to completion of studies. Through this collaboration, timelines for the implementation of corrective action and status updates are documented for presentation at the upcoming Audit Committee Meetings.

For more information, please visit their website at <https://www.fairfaxcounty.gov/boardauditor/>.

Animal Shelter Corner

Meet Carmen!

Age: 5y

Gender: Female

Color: Apricot

Spayed/Neutered: Yes

Size: Small

If you think Carmen looks a little like an adorable cartoon character, we agree! Carmen arrived to the Fairfax County Animal Shelter as a stray so they don't know much about her history, but they have been able to guess at a few

things. They think she's around five years old, and her fur was really matted when she arrived. She was really nervous and jumpy at first, and any quick movement would cause her to jump and yelp. Their Animal Care Manager took little Carmen under her wing, which meant Carmen got to spend lots of time in an office so they could try and figure her out. Here's what they learned:

- Carmen LOVES squeaky toys! The best way to gain her trust is to have a squeaky toy and play with her. She'll play fetch with you or is just happy to carry them around.
- She is sloooow to warm up to new people but once she does, she enjoys sitting on your lap and getting affection.
- She hasn't learned how to signal that she needs to go outside but a consistent routine will help her. Her person will need to be extremely patient and understanding, and never get mad at Carmen for having accidents. Carmen seems to react very fearfully when she feels someone is upset at her, and she needs someone who will help build her confidence and trust up.
- She's unsure about other dogs but could possibly like them once she gets to know them. Large dogs make her nervous and she seems more comfy with small dogs.
- A quiet, (small) child-free home would be ideal since quick movements and loud noises make her real nervous!
- Carmen loves walking on a leash, and really enjoys exploring!
- She LOOOOVES squeaky toys! (Wait, did we already say that...? Well, she REALLY loves them!)

If you are interested in meeting Carmen, please email the Animal Shelter at animalshelter@fairfaxcounty.gov so they can set up a time to introduce her to you!
